

S.T.E.M CLASSES

Cape Cod Children's Museum is proud to welcome back Kath King as our STEM Teacher. Kath has incredible energy and passion for science but that's not all, she has 10 years of experience teaching 3rd grade science, a Master's in Biomedical Engineering and she is a registered nurse. Kath will be teaching interactive, hands-on science – no screens in this classroom! All social distancing and safety precautions are being taken and everyone is required to wear a MASK!

Session 1 ~ Body Systems

Interactive experiments to answer questions like
"What is blood made of?" "How does our body
digest food?" "Why don't our bones bend?"

Tuesdays at 9:30 a.m. -10:30 a.m.

October 20th, 27th and November 3rd, 10th

PRICING:

Adults are free and encouraged to stay in the classroom to help with social distancing, unless they are with younger children in the museum (regular admission required).

Four Week Session Non-members: \$40.00 first person, \$30 second person, \$25 third person

Four Week Session Members: \$32.00 first person, \$24 second person, \$20 third person

Stem Class Sessions registration is on a first come, first serve basis. Six stations available with a maximum of three children per station (Kindergarten – 4th grade). You may bring siblings, friends in your "bubble", etc. Please call 508-539-8788 to register, or sign-up in person at the museum. Stay after class and play! Check the website regularly for new session postings! We are open Tuesday, Thursday, & Saturday, 10 am – 1 pm.
